

## 1. ETI-CAD installation and first start.

After installation »CADprofi configuration« will open, automatically, if not then open it manually by clicking the icon on the desktop:

Then select CAD program you will use and click »Configure CAD« to insert plugin:

After finished configuration process, the program will ask you if you want to launch the selected CAD program. It's not necessary to launch it in this moment, you can launch it later, doing directly, you don't need to run »CADprofi configuration anymore«:

CADprofi	×					
?	Program 'Bricscad V15 x64 - en_US' has been adjusted.					
Do you want to run Bricscad V15 x64 - en_US ?						
	Da Ne					

Click »Yes« for start of CAD program, or »No« to close it.

In your CAD program there is new tab **»ETI-CAD**«. Click it to show drop list with all the options or use the toolbar:
